

**VENTURE ACADEMY – (2) OFFICE ADDITION RFQ
COVER LETTER**

May 12, 2022

To Whom It May Concern:

Axis Reclamation & Construction Corporation is a full-service general contractor serving the intermountain area since April 6th, 2011. Axis has completed projects for institutional, light & heavy industrial and retail markets.

Axis is officed in Northwest Weber County and is owned and operated by Rachelle Gallego Knight, CEO/President. Rachelle manages the financial and human resource needs of the company and has charged her husband, Blake Knight to help manage the operational needs of the firm.

Axis has reviewed the requirements of the RFQ and see a perfect fit through its team along with Gary Hunt Architects whom we've teamed up on several projects. We've included a tentative schedule that coincides with the RFQ schedule needs. Axis is committed to perform the requirements as set forth in the RFQ and to exceed the expectations of Venture Academy.

Our design-build team has had extensive experience on projects of this size and with our extensive retail background, adds the sense of urgency needed to achieve aggressive goals and objectives.

We look forward to working with the Venture Academy Team in achieving their goals and hope you find Axis' capabilities and experience compatible and align with your objectives. Please feel free to contact us at your convenience to answer any questions you may have.
